Discover how we nurture the unique potential in every child and sharpen their overall development in a fun and inspiring manners.

LERRO LEARNING FOUNDATION

Lerro Learning Foundation, registered on 17th May 2021, in Patna laid a foundation by establishing Royal Hills International School and RHIS Junior – A Play School in Sitamarhi, with objective of establishing educational institutions with holistic educations.

The prime objective of the of Lerro Learning Foundation is to provide facilities for quality education to boys and girls of all ages by establishing schools that offer pre-primary to middle stage education.

The School – An Introduction

Royal Hills International School Junior

Royal Hills International School Junior was established to provide a platform of great opportunities to every child. We endeavor to provide exceptional care to our children in a safe and secure environment where children feel loved and develop to their fullest potential. Here children are not just given wings, but the school also ensures that they develop strong roots. Most importantly, children are loved and made to feel cherished so that they approach life with a positive attitude.

The curriculum at RHIS Junior is conceived in such a way that everything the child learns at the pre school prepares him for an easy transition into Grade 1 in any formal schools. This smooth step towards a bigger future is accomplished via series of activities that are woven into academic programs.

We are here for upgrading all round development of the children and facilitating the youthful minds to cope with ever – growing challenges of life.

- **FRIENDLY:** All our teachers are fully trained and treat children in a friendly manner.
- **QUALIFIED:** Backed by a well-qualified team of preschool teachers, we ensure to provide quality education.
- **EXPERIENCE:** With immense experience, our early childhood educators educate and care for children with perfection.
- **PLAY AREAS:** We have play spaces that your children will surely love! Our play areas keep children expressive & active
- **EDUCATION** Educational Trips conducted during a session to bring out the best in small children.
- **LEARNING:** Extra-curricular activities like art & Craft, dance class, conducted every week.

Vision & Mission

VISION

To establish an ideal preschool chain that leads in offering a powerful foundation to young children who will joyfully take-off on the journey to discover the world of happy thinking, learning and to create global citizens.

MISSION

- Transformation of the Education System - To revolutionize the education system so that children are imparted 'Education for Life' which encompasses not only knowledge but also enhances the talents and life skills necessary for the holistic development of the child.
- Transformation of Parenting - To guide and enlighten parents about positive parenting so as to enable them to make their parenting experience richer, more joyful and more rewarding.
- Transformation in the role and status of teachers - To elevate the status and widen the horizons of teachers by equipping them with knowledge, expertise and skills required to transform them into leaders in education
- To initiate a vibrant journey that taps, unlocks and enhances the potentials of the pre-scholars who transform into courageous and motivated individuals.

"A life of joy and happiness is possible only on the basis of Knowledge and Science."

-Dr. Sarvepalli Radhakrishnan

Royal Hills International School

There is a future we believe in, fostered by strong souls and inventive minds.

We believe the way to usher in change, is to empower young minds with stellar education, thus creating the enablers of tomorrow.

Laying its foundation stone in 2021, Royal Hills International School was set up with a vision: To create leaders of tomorrow by imparting education, free from all prejudices with a focus on the holistic development of students.

Shaping Future!

RHIS offers a curriculum from Grades I onward, mapped as per the Central Board of Secondary Education, New Delhi. At RHIS, we encourage our student to learn, play and create new opportunities for themselves. Education is not the process of teaching by the teacher, it is the process to encourage the learning process of the student.

Our main emphasis is on providing quality education and excellence in all the fields to inspire the students to be morally upright and possess qualities of integrity, truthfulness and honesty. Not only this, we develop patriotic, social and ethical values among students for developing responsive citizenship to revive the past glory of Indian culture.

- **FRIENDLY:** All our teachers are fully trained and treat children in a friendly manner.
- **QUALIFIED:** Backed by a well-qualified team of preschool teachers, we ensure to provide quality education.
- **EXPERIENCE:** With immense experience, our educators are well organised, committed, creative and energetic.
- **PLAY AREAS:** We have play spaces that your children will surely love! Our play areas keep children expressive & active
- **EDUCATION** Educational Trips conducted during a session to bring out the best in small children.
- **LEARNING:** Extra-curricular activities like art & Craft, dance class, conducted every week.

Vision & Mission

VISION

Some people follow a path they choose on their own. They discover their true calling. They chase their dreams with passion, and excel in their chosen discipline. But, best of all, they become what they want to be. Royal Hills International School is the school for such people. To facilitate a learning environment that encourages children to bring out the best in them selves and enables their all-round development through the joy of learning.

MISSION

- To provide an environment that helps young minds freely learn and develop and help children evolve as complete individuals, ready to transform as leaders of 21st Century with values and life skills inculcated in them.
- To help children in encouraging values such as creative ability - discover new ideas and skills.
- To inculcate positive values i.e. moral development through prayers, stories and poems.
- To foster independence and self-reliance.

From Director's Desk

DEAR PARENTS,

“Somewhere, something incredible is waiting to be known.” -Carl Sagan
This quote is relevant for all of us: children, parents and teachers.

RHIS focuses on all-round development of its students. Education is the most powerful tool to enrich one’s personality and also to inculcate positive changes in society. It is the only medium that enables us to move from darkness to light. I strongly believe that the education system is the most influential factor to drive and improve our nation’s prosperity and social-economic well-being.

The school is founded on the belief that children should be encouraged to dream, and passionately pursue their dreams. We work towards opening their minds, help them identify their interests and aspirations, and nourish their individual talents. We believe that every one of our students has the potential to become a leader of tomorrow.

We should all remember that “Honesty is the first chapter in the book of wisdom” and we should inculcate honesty and integrity in all that we do. I earnestly hope and trust that the academicians and budding children will continue to work with sincerity, honesty and dedication and thereby contribute to make this world a better place to live.

Ashutosh Vibhu
Director
RHIS, Lerro Learning
Foundation

Academic Program

GIVE YOUR CHILD A HEAD START IN LIFE WITH SOME ADAVANTAGES

Our Programs for Early Child & Primary Education

Early Child Education (RHIS Junior)

The Pre-Primary teaching broadly uses the Play Way Method to teach the curriculum. Through this method, teachers facilitate students to understand basic concepts of language and numbers thus giving them the first lessons in Life Skills. The Play Way Method is further reinforced by hands-on activities conducted in and out of the classroom. Field Trips, Nature Walks, Celebrations of Festivals, Topic-based Projects, form a regular and integral part of learning-through-doing.

- **Readiness:** KG program designed to make a smooth transition to Grade 1 in formal school. This smooth step towards a bigger future is accomplished via series of activities that are woven into academic programs.
- **Tech Learning:** To develop an affinity for technology among kids. In today's world it is hard to ignore the significance and influence of technology in education.
- **Age-appropriate knowledge building:** Themes designed to enhance world view of the child.
- **Interactive Posters:** Posters in the classrooms help children learn the sights and sounds better and also aid their sentence formation skill.
- **Integrated Curriculum:** We offer interactivity between parents, child and teacher for a seamless learning experience.
- **Life Skills:** An all-encompassing teaching methodology with life values woven into the curriculum.
- **We CARE:** Trained teachers and staff ensure Child Abuse Prevention and the well being of every child.

Play Group (Age Group: 1.5 – 2.5 Years)

Our play group provides children with a range of individual, small and large group activities.

Nursery (Age Group: 2.5 – 3.5 Years)

In Nursery, children are engaged in school readiness activities such as reading, writing, counting numbers. Children are encouraged with group activities.

Kindergarten

- o Junior KG (Age Group: 3.5 – 4.5 Years)
- o Senior KG (Age Group: 4.5 – 5.5 Years)

In addition to the age-appropriate activities in kindergarten, which prepare your child for success in formal schools, various activities are conducted in a planned manner throughout the year through a well-designed assessment pattern.

Primary Education (Royal Hills International School)

RHIS Sitamarhi follows a curriculum mapped as per the Central Board of Secondary Education. The curriculum followed is based on NCERT guidelines.

For classes I – III the curriculum is theme-based. The idea behind this is to seamlessly integrate various subjects with a common thread which links them to practical aspect of life. This gives our students a holistic view and allows them to apply knowledge and correlate various subjects to real-life situations.

The aims of teaching and learning mathematics are to encourage and enable students to recognize that mathematics permeates the world around us and appreciate the usefulness, power and beauty of mathematics. The purpose is achieved through teaching mathematics to the students of Classes I – V in a very innovative manner and develop their abstract, logical and critical thinking.

From Class VI formal subjects like Physics, Chemistry, Biology and Political Science are introduced. NCERT books are followed in school but the methodology of delivery is unique. Lessons are planned so that students get to learn their subjects in a practical manner with a plethora of projects and activities.

"Education is the most powerful weapon which you can use to change the world."

Shaping Future!

Admission Procedure

Admission is granted on the basis of an entrance examination conducted by the school. Meritorious students from Schools having a good academic record may be granted direct admission providing they provide the last two-year certified mark sheets from their present schools.

The school academic session starts in the first week of April every year and ends on March 31st of the subsequent year. Hence applications for admission for Day Scholars must ordinarily reach the school latest by 31 March in the year that admission is sought.

It is desirable that all admission formalities be completed well before the end of March. However limited vacancies may exist in the middle of the academic year. Information on midyear vacancies may be obtained by e-mailing the schools Admissions Coordinator Principal and account office.

Registration/Admission Form – The registration /admission form may be printed from the website or obtained from the school admissions office. This form must be completed and sent to the school along with all the documents mentioned on the form to enable the school to process the application.

Entrance Examination – The school conducts an entrance examination for children seeking admission to Royal Hills International School Junior and Royal Hills International School. These entrance examinations are conducted well before the commencement of the new academic session. The dates on which these entrance examinations will be conducted are communicated well in advance by the school admissions office to the parents of children seeking admission. Offers for admissions will be made on the basis of the results of these examinations and will depend on the number of vacancies in each class.

Entrance Examination Exemption – The school also has a provision of direct offer of admission to children with a proven academic record in their old school. For parents who wish to apply for an entrance examination exemption and seek direct admission for their ward, it is essential that they enclose the last two years report cards and supporting certificates/testimonials. On receipt of the application, the school will revert with an offer of admission if the School Admissions Committee approves the application.

NOTE :

- **Age Criteria must be followed which is directed by the State Education Board.**
- **The school reserves the right to admit a student in the appropriate class after examining the student. Even after the admission is granted the student can either be adjusted in a lower or higher class, whichever the case may be, depending upon the student's ability at the discretion of the authorities.**
- **The School Management reserves to itself the right to admit or refuse pupils seeking admission to the school without furnishing any reasons whatsoever. Similarly, the management decides when the question of retaining a student in school arises.**

- The school reserves the right to revise the fee as determined by the School Board of Management. The fee revision will be linked with the national cost of living index and current inflation rates which may amount to an increase of 10-12% annually or more. The School management can increase the transport fee with the increase in fuel rates.
- Admission is strictly subject to fulfilling of all conditions and submission of requisite documents .TC from the previous school must be submitted within 15 days after the commencement of the academic session.
- Please refer the School Admission Form, Transport and Medical Form for various Terms and Conditions, Document Checklists and other clauses subject to your ward's admission.

PLEASE READ AND FILL THE FORM CAREFULLY

Co-Curricular Activities

BECAUSE LEARNING IS NOT LIMITED TO TEXT BOOKS AND EXAMS

Co-curricular activities are integral part of life of a student in our school. At our school, our kids are not limited to just classroom learning. We regularly arrange activity-based learning opportunities for our children, which are fun-filled and educative at the same time.

We also celebrate all the major festivals and significant days like Teacher's Day, Children's Day, World Environment Day. These activities sharpen softer skills, the aesthetic senses, sensitivity of feelings, dignity of labor and team work.

- *Counselling and guidance*
- *Competitions*
- *Daily Assembly*
- *Celebration of Special Assemblies and Festivals*
- *Recreational Activities*
- *Educational Tours and Excursions*
- *Indoor and Outdoor Sports*
- *Physical exercise and Yoga*
- *Free Health Check-up Camps*
- *Social initiatives such as Say No to Plastics and Save Water*

Social Initiatives

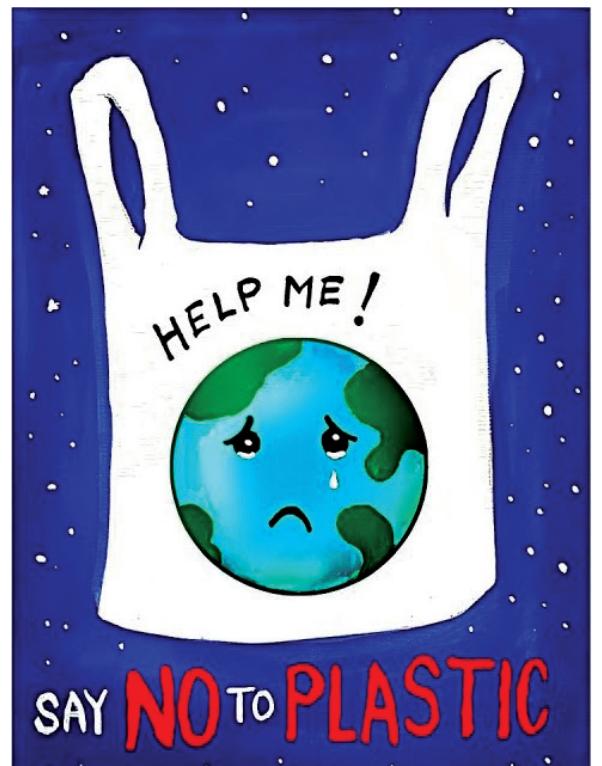

WE DON'T JUST RAISE THE LEADERS OF TOMORROW; WITH OUR SPECIAL INITIATIVES, WE RAISE HUMANITY AS WELL.

Lerro Learning Foundation seeks to give its students the opportunities to learn to progress in a changing environment, with the needed expertise, resources and information and asks of them to heartily use these “powers” to be of benefit to self and the society. We strive to bring about this sense of balance in students, to help them apply what they learn with humility and wisdom, so that the end result will be harmonious and productive.

In our endeavor to make students responsible citizens of the world, social initiatives and community programs are an integral part of their life on campus.

Some Major Initiatives by Lerro Learning Foundation to Save our Mother Earth

Say No to Plastics - Plastic bags are one of the most commonly used things today. This initiative has been taken keeping in mind the end result of the usage i.e. they are non-bio degradable and they don't easily decompose resulting in plastic pollution. Plastic pollution is also a major cause to water pollution as they enter into the water bodies. people throw away the bags carelessly on the roads, in the drains and rivers. Most importantly, plastic causes the death of animals. The animals have no sense of what to eat and what to avoid. The stray animals gulp down plastic bags that get stuck in their bodies. In other words, this causes serious illnesses in their bodies. Sometimes, they choke to death after eating plastic bags. Furthermore, plastic bags contaminate the soil causing hindrance to growth of plants. They seep into the soil after breaking down and remain there causing infertility in soils. The chemical hampers the soil and interferes with agriculture.

How to Avoid Plastic Bags?

Though it may be difficult to avoid the plastic bags at first, it needs to be done for the greater good. Plastic is slowly and steadily eating away our planet and damaging it. The government has banned the use of plastic bags but still, people continue to use it despite the ban. we must carry our own cloth or paper bags for shopping. Try to pack your food in steel or aluminum containers instead of plastic ones. We must encourage children to avoid the use of plastic bags. If we see someone using it, we must call them out immediately. Never throw away the plastic on roads, as animals die after consuming it. We must come together to initiate a ban on plastic and make the world safer and healthier.

Save Water, Save Life, Save our Mother Earth Water has become a highly necessary part of human being's existence on Earth. Thus, the importance of water can be compared to the importance of air. All living organisms whether it is human, animals, or plants. Everyone is completely depending on fresh and potable water. Water is perhaps the second most important substance on Earth after the air. Apart from drinking, there are other benefits of water as well. Thus, it includes cooking, washing, cleaning, etc. Water is not a vital part of the human being's survival. Also, it is important for the survival of trees and plants. Currently, there are many regions in the world that are facing extreme water scarcity due to deadlines of groundwater and scanty rainfalls. Also, in some areas, the groundwater is contaminated or it has been overused. Thus, these factors have to lead to drought situations and in these areas, it has led to water scarcity. Seeing this, the water crisis in the future does seem inevitable. Also, it calls for an immediate action plan in order to conserve water so that precious resource can be saved for today as well for future generations.

How to Save Water?

The best way to save water is to use it judiciously. Water pollution is another reason that has resulted in loss of fresh water on our mother earth. By not throwing industrial wastes in water bodies or by not discharging sewage supplies in water bodies, we can save water. Water Conservation or Rain water harvesting is the best method to save water for various purposes such as irrigation, car wash etc. This initiative can help and promote the conservation of water. Also, it can be spread awareness among the people about the importance of water.

One Person One Sapling – World Environment Day

World Environment Day is celebrated on 5th June, every year. People from more than 100 countries celebrate this day. Furthermore, the world environment day is run by the United Nations Environment Program (UNEP) since the year 1973. The main purpose of celebrating this day was to spread awareness the conservation of our environment. With this initiative every individual promises Mother Earth to plant one sapling for conserving the environment.

रायल हिल्स के बच्चों ने राधा-कृष्ण बनकर मन मोहा

जन्माष्टमी पर राधा-कृष्ण के रूप में स्कूल के बच्चे • जागरण

सीतापढ़ी, वि: शहर से सटे नाहर लेन शाति नगर के नवबर एक प्ले स्कूल रॉयल हिल्स सीनियर वर्ग के लिए रॉयल हिल्स इंटरनेशनल स्कूल में मटका फोड़ कार्यक्रम हुआ। नए भवन का शुभारंभ भी किया गया। विभु विद्यार्थी द्वारा दीप प्रज्वलित कर स्कूल का शुभारंभ किया गया। उन्होंने बताया कि विद्यालय में बच्चों

को अच्छी शिक्षा के साथ अतिरिक्त क्रिया-कलापों पर ध्यान देना है। स्कूल के निदेशक आशुतोष विभु ने कहा कि बच्चों में संस्कारयुक्त शिक्षा देना हम शिक्षकों का दियतिव है। प्राचार्य सुजीत सोनी ने कहा कि शिक्षा ग्रहण करने के बाद बच्चे ही देश के भविष्य को संवार सकते हैं। आवश्यकता है संस्कार युक्त शिक्षा देने की।

We Care

Your child's safety is our first priority

A Safe and sound environment for your Child.

- Our Teachers are certified which means that they are well trained to prevent any form of child abuse.
- CCTV Surveillance – All rooms and areas are under constant CCTV surveillance.
- No Un-Authorized Access – Besides a caring and secure environment, we make sure that no child is ever left alone. This is done by keeping all unused rooms locked during school hours and by ensuring zero access to unauthorized persons.
- Child's Wellbeing – These measures ensure that your child's emotional, physical and social well-being will be taken care of, at every point of time.
- COVID-19 Response – Proper sanitization process is being followed in school premises after school hours daily.

CORONAVIRUS (COVID-19)

There is enough of everything, everyday for everyone

HELP US TO HELP OTHERS

The infographic provides guidance on COVID-19 prevention:

- Wash your hand with soap and water regularly:** Illustration shows hands being washed.
- Throw used tissues into closed bins immediately after use:** Illustration shows a person throwing a tissue into a bin.
- Cover your nose and mouth with handkerchief/tissue while sneezing and coughing:** Illustration shows a person covering their nose and mouth with a tissue.
- If soap and water is not available, use hand sanitizer with at least 60% alcohol:** Illustration shows hands being sanitized with a bottle of hand sanitizer.
- Wash hands before touching eyes, nose and mouth:** Illustration shows hands being washed.
